TEA PARTY FORUM – OCT. 13 – LIBRARY – AUDITORIUM – 6PM – 8PM

If you just want information on events and candidates we are happy to furnish you with that – we have a web site, twitter account, facebook, and even Snail mail. On line we will have a Newsletter of interest that you can get any time. What would motivate you to step up and become involved in the Flint Hills TEA Party? There is more work than the present working members can accomplish. Do you want us to succeed? If so, please, help even if it is only in the background. Buy a T-shirt and wear it from time to time. We need “background” people, people to help us be successful. If you don't want to be seen, that's OK. We need those who are willing to help if in no other way than with contributions (one huge expenditure is “snail mail”) and other “in the background” ways. Buy us a book of stamps. What are YOUR goals? We can help you while you help us!! We want to work together!! We are so happy you have let us know you are interested in our country. Please, help us!! Moral support is great, but to be able to really accomplish our mission of getting our country back to God, the Constitution, and the people we need more help of one type or another. Come to our meetings; tell us what you want to see us accomplish/change/cancel out within our governing process. Contact us as a group or as individuals and we will work with you in finding ways to accomplish what you want.

Be sure to come to our next meeting on September 25th at the Manhattan Library.

LEE MODESITT is a Conservative Republican candidate for the Kansas State Legislature in district 66.

Statements by Lee Modesitt

“As a lifelong Kansas, I worry about the problems our state is facing. I am concerned about the amount of debt being piled on my generation and those not yet born. We cannot afford to

continue down the path that we are on. I'm running to bring new leadership and a fresh perspective to the 66th district."

KANSAS JOB GROWTH – In the last 2 years, we have seen over 150,000 private sector jobs leave the State of Kansas. We must create an environment in which businesses want to come to Kansas. I am dedicated to fight for job creation and reversing the current job loss trend.

QUALITY EDUCATION – I truly believe that education is the key to success for our great state. Total education spending accounts for almost two-thirds of the state budget, and I will work to make sure that every penny spent on education provides a quality education for all Kansans.

INDEPENDENT ENERGY – Kansas is in a great position to be our nation's leader with independent energy, and I am committed to working for a sound independent energy, and I am committed to working for a sound independent energy solution, which will reduce foreign dependency.

GOVERNMENT TRANSPARENCY – I promise to make great efforts to bring greater accountability to state government. When we are open and honest about how we are conducting business, I believe government will operate better and more efficiently.

LET ME TELL YOU ABOUT LESS

Thank you for taking the time to learn a little more about me. I grew up in the small town of Oswego where I was raised by two wonderful parents.

Both of my parents have spent most of their adult lives in public service. My dad is a paramedic for Labette Health and bi-vocational minister at a small Baptist church. My mother has served numerous roles within the church, including working with women at the correctional facility before it's closing as a result of the reduction in state revenue.

I was raised in an environment where service to others, hard work, and responsibility was expected. My parents instilled in me the values that nothing in life is free, and if you want something bad enough you have to earn it. Looking back I couldn't agree more.

I have a wonderful wife, Bridget, whom I met while attending community college. I'm proud of her desire to serve our future generations by becoming an elementary teacher. My wife and I share a vision of serving others. When we decided that I should run for the Kansas house, it was because of a shared desire to see others succeed and have the opportunities that every Kansan deserves.

My wife and I both will soon finish college and like all Kansans we are concerned about jobs. We understand the challenges that every Kansas family is facing because we are just like you. My wife and I are dedicated to working hard for you and we ask for your support.

Every Kansan's future depends on how we weather this storm. I believe that we need new leadership from the 66th district that will bring a fresh perspective in addressing the problems our great state is facing.

I'm ready to work for you, and I would appreciate your vote.

KRIS KOBACH is the Conservative Republican candidate running for the Secretary of State office on the Republican ticket. Kris has recently been criticized for the errors that occurred while he was leader of the Kansas Republican Party. Within these errors was the non-filing of taxes and incomplete reports. Kris readily admits he made the error of hiring a person that DID NOT complete his duties as assigned. Kris thought he had hired a person of responsibility, integrity, and honesty, but belatedly discovered that he had made a serious error and instead had hired a person who just pretended to honestly complete his assigned duties. Kris Kobach has learned his lesson. As Secretary of State he would not have this problem. “The staff that is in place are doing a great job, are trustworthy, and will remain in their present positions.” Kris stated. Also, since he made this error once he will be doubly cautious and alert to future problems.

Kris has vowed to clean up voter fraud, while the incumbent, Chris Biggs, says there is so little of it that it isn’t worthy of the effort and could “suppress voter turnout” and could cause an overreaction to a “handful of voter fraud cases.” In reality all over our country there are dead people, felons and illegal aliens registered to vote in each election. Don’t you think this should be straightened up and corrected? In my opinion and in Kris Kobach’s opinion a handful of voter fraud cases are a handful too many. In addition to stopping voter fraud in Kansas Kris would be setting an excellent example for the rest of the country to follow.

There are many instances in which close scrutiny is needed within our state government. Another problem that Kris is chomping at the bit to clear up is illegal immigration and all of the complications that go along with it. Immigration is a countrywide problem that can and will be addressed by Kris Kobach in the Secretary of State office. There are immigration laws and all of them should be enforced and we can count on Kris to work hard to be sure everything under the Secretary of State office is as the law states. This, obviously, is not the attitude of the current Secretary of State Chris Biggs. If Sec. Biggs is stating that “a handful of voter fraud” is not worthy of his time and effort what else is he choosing to ignore?

I, personally, do not know all of the areas that are within the Secretary of State boundaries. However, I do know that Kris will address each and every one of them and work to the highest extent of his and his staff’s abilities to enforce them to the extend of the law of our great state of Kansas. I have met and visited with Kris concerning many problems here in Kansas. I have no doubt that there will be NO “handful” of problems of any kind that will be too large or small to be addressed by Kris Kobach and his staff.

Kris is one of the most knowledgeable persons in the country when it comes to the Constitution of the United States and the Constitution of the State of Kansas. This is knowledge that he will apply to the Secretary of State position.

We need to be RID of a Secretary of State that believes “a handful of problems” isn’t enough to worry about. Oh, my friends, we need Kris Kobach and need him badly.

Take 'em Down 2010 Vote ALL of Them OUT!!

Were you aware that the following is actual LAW?

Are you fully aware of what this is requiring when **anyone** (company, school, wherever government monies are paying the way) is receiving federal money the receiver is required to meet the federal government mandates? This means anyone anywhere that receives Federal government monies is allowing the Federal government to control a portion of their life/business. What is the Federal Government controlling in your life or your child's school; because of receiving Federal funds? Is it really worth it?

Is your school following this mandate? Are they teaching the constitution written by our founding fathers each September 17th? OR Are they teaching a Constitution that has been "transformed" into a document that can be changed at a whim? Oh, yes, there are those Constitutions and you need to be sure which one your children and fellow countrymen are being taught from.

Check with your School Board!! And achieve your own education. To be sure you have the correct Constitution check with: NCCS.net (National Center of Constitution Studies).
